## **Board Report**

### **I. Master Schedule Planning for 2024/25**

This is the time of the year where Jenkins staff begin the process of reviewing our current classes and planning for the following year using student data to guide our process. This year, we are taking into consideration P223 enrollment data per grade level, College in the HS (CIHS) student needs, our vision for possible support courses like a 9<sup>th</sup> Grade Academic Success Course, and other possible Title I and Learning Assistance Programs (LAP). We are also having conversations about how to assist students with their Tier II academic behaviors in a systemic process during the school day.

There have been challenges this year in our high school elective classes so that schedules are balanced, and students are in relevant courses. In the past, Vanessa and I, in coordination with teacher recommendations, have tried to have some elective courses where they have to meet pre-requisites. This year we have had to work with staff to be more flexible in scheduling so that a student who, for example, has a need for a class 5<sup>th</sup> period has a place to go, such as CTE courses, Yearbook, and Dance. The effect is that a teacher has the challenge of students with diverse needs that may need additional accommodations.

We also had an influx of 7<sup>th</sup> grade students this year for a total of 66 full-time equivalent (FTE) students, which was much higher than projected. We had to make some adjustments to the junior high schedule this semester to accommodate and maximize student learning.

### **II. Professional Development**

#### **A. Walk -through Observation Focus**

Mr. Perrins continues to provide walk-through observation information and professional development readings centered on effective “Look Fors” while conducting walk-through observations of our classrooms. The most recent reading focused on Comprehensive Reading Program Instruction from the Center of Teaching and Learning, University of Oregon. Using a Framework allows educational leaders to use form as a quick reference and provide specific rationale for feedback and potential questions and suggestions to improve instruction and student learning.

## **B. PLC Leadership Team Training**

On Friday, February 09, our Leadership Team, which includes administrators and teacher leaders, met all day at the district office for one of the best professional development opportunities of the year so far. Mike Mattos, from Solution Tree, presented information on the Systematic Intervention Processes using Multi-Tiered Systems of Support (MTSS). The purpose of the process is to ensure that ALL students learn at grade level or higher each year.

The key to a successful MTSS starts with access to essential guaranteed grade-level standards for all students at Tier I. When students are assessed after learning target teaching, students are then provided additional Tier I support or opportunities for additional Tier II small group support by teacher experts during the school day. One point that Mr. Mattos hit home was that based on his experience in the field and in his consultation with other schools, it is imperative for teachers to choose 3-5 essential guaranteed standards to focus on per semester. The standards that we guarantee are the standards that we focus our tier II interventions and focused formative assessments.

Next, Mike Mattos focused on the MTSS of expected academic behaviors that also need to be taught much like the essential guaranteed academic standards, which should be at a school-wide level. Our Jenkins Team has already been talking with key members of our staff in the beginning discussions on how to move forward with modifying our systems of support to focus our vision and goals of tiered support.

## **C. 9<sup>th</sup> Grade Success Professional Development**

On Tuesday, February 13<sup>th</sup>, six teachers and I met after school from 3:30 – 5:30 PM for professional development on Academic Intervention Processes for our students. This could not have been timed any better and in alignment with our PD on Friday from Solution Tree. We specifically were talking about Tier II Strategies that we have been using this year and that we are planning to use during the second semester. Our discussion on effective strategies, reviewing our student Academic Data, led us to conclude that our energy in identifying students for Tier II Intervention, choosing three students per adult to Check and Connect with during the last month of the semester, and using the KidTalk Protocol to identify learning barriers and root causes of behavior were key to reducing the number of students who failed 9<sup>th</sup> grade courses. This was a great team effort that is having an impact on student learning and our systems of response.

We also discussed Steps 1-4 of Intervention 201.

1. Does the students have a sense of Belonging?
2. What is the Root Cause of their behavior?
3. What skills do they need to address/change their behavior?
4. What intervention level is needed (Tier I or II)?

On Thursday, from 3:30 – 5:30 PM our team will be meeting to review step #5 of Intervention 201.

### **III. 9<sup>th</sup> Grade Academic and Behavior Assembly**

On Monday, February 12<sup>th</sup> during Pride, under the leadership and organization of our 9<sup>th</sup> grade academic teacher leader, we rewarded 9<sup>th</sup> grade students with academic and growth awards for the first semester. Drink certificates, Cougar Swag gear, food and fun were had by many. This was a great team effort working to improve our Culture and Climate. What we reward and focus on will be improved. This is a big step in the right direction.

### **IV. First Semester Academic Awards Assembly**

Mrs. French and her leadership students took on the first semester Academic Awards Assembly for students in 7-12 grade. This assembly was focused primarily on recognizing student GPA with certificates and a gift selection.

### **V. Running Start/College in the High School Informational Meeting**

Last week, Vanessa led an amazing informational session for our parents on the benefits and challenges of RS and CiHS programs. She did an amazing job of presenting to students and parents. The presentation included both staff who were advocating for their CiHS courses and students who were telling it like it is. The turnout was excellent. At the conclusion of the meeting, I talked to the students and the parents about our goal over the last three years of improving the sense of belonging at Jenkins for those students who were in RS and how it was super important to us as they were some of our top students and that we cared about them deeply. Feedback after the meeting reinforced our focus on this goal as two different parents who had multiple students who have gone through RS shared that our systems of communication have greatly improved. The main feedback was regarding our daily and weekly schedule of events and our counseling office meetings that are required multiple times a year. Well done counseling office.

# Student Support Services

Board Report – February 2024

## Quartzite Learning and Open Doors

Staff have been reviewing winter assessment data in their PLCs and have been analyzing growth from fall to winter. Our next step will be to look at students that did not show as much growth and plan appropriate interventions to support them. We have 6 staff members attending the annual WALA Spring Conference and will be presenting during 3 sessions this year. We are excited to continue to grow in our practice by learning from others. We also have our next round of professional learning from the National Dropout Prevention Center on March 1<sup>st</sup> as we continue to work on our culture goals within our building. Our first science fair was successful for students across grade levels and we are planning an art show as well as projects for the district student showcase in May. We also reviewed our school improvement plan at a recent staff meeting and discussed support of our special education students.

## Data and Assessment

Winter round of MAP testing closes on February 16<sup>th</sup> and we will be compiling results from both i-Ready and MAP to share with the board at the March work session. This year's survey window of the Educational Effectiveness Survey (EES) in partnership with The Center for Educational Effectiveness (CEE) will be February 20<sup>th</sup> – March 7<sup>th</sup>. The buildings are developing plans for administering the survey to students. We will push out the family surveys through social media, email, and text. Staff will receive a personalized email with a link to their survey. We hope these efforts will lead to a large number of surveys returned.

## Food Service

We have started to use some of our Farm-to-School grant money to purchase local items including rolls from the Bread Box in Chewelah and both Honeycrisp and Cosmic Crisp apples from Washington orchards. In addition to that, the Fresh Fruit and Vegetable program was launched at Gess Elementary. Each grade level receives a fresh fruit snack in the afternoon two days per week. As this is a new program for us, we wanted to ensure that we started in a way that allowed us to be successful in its initial implementation. We will review the program later this spring and make modifications as needed.

Through our work as part of the Child Nutrition Cooperative with ESD 101, we have been able to use their Happy Or Not feedback systems for two weeks this month. After breakfast and lunch students are asked to vote by selecting the appropriate smiley face to show how happy they were with the food served for that meal. We look forward to receiving this data and taking a closer look at the items that are on our menu.

## Special Education Department Board Report

February 2024

### Special Education Mission Statement:

*As a special education department, we believe that ALL students can achieve great things. We develop relationships with staff, families, and students to create and implement effective individualized education plans that meet student's needs across settings and domains of learning fostering independence and promoting life-long learning.*

### Child Count + Demographics:

As of February 14, 2024, we are currently serving 126 students with IEPs in the district; 78 students are considered Tier 1 students which indicates that the student spends 80% or more of the school day in general education, while 48 of our students are Tier 2 which indicates that they participate in general education for less than 80% of the school day. In order to promote the inclusion initiative in Washington, students in Tier 1 are funded at a slightly higher rate than those in Tier 2. With a total enrollment of 827, our percentage of students receiving services is 15.3%.

### Student Learning:

As you can see from the included Formative Assessments, students are making impressive gains in their IEP goals and objectives. In December, I shared with you growth monitoring for students receiving services in the area of Reading. This month, I would like to share iReady benchmark results for students in 3<sup>rd</sup> grade who receive services in the area of Mathematics. As you can see, 3 of the 5 students made impressive gains while two students demonstrated a decrease. As IEP teams, we carefully review this data, in addition to more sensitive curriculum-based measurements, to ensure that the interventions we are providing are working. In this case, our two students who demonstrated a decrease are demonstrating learning in small groups and in curriculum-based measures. These students demonstrate difficulty with attention and the web-based assessment of iReady is deemed to be less valid than the face-to-face instruction and informal measures used weekly with these students.

## PERFORMANCE-BASED PATHWAY FOR HIGH SCHOOL GRADUATION

The board is committed to providing graduation pathways that are student-focused, adaptable, rigorous, and meaningful ways for students to demonstrate appropriate readiness in support of their individualized career and college goals. As part of that commitment, the Chewelah School District offers multiple pathway options, including a performance-based pathway for high school graduation.

The performance-based pathway includes the following components:

- Proposal created by the student, or a learning contract for a performance-based pathway opportunity developed by a school or the district,
- Student Learning experience,
- Product created by the student based on the learning experience that must demonstrate that the student has met learning standards in English Language Arts or math, and
- Evaluation of the student product, performed locally, involving at least one teacher endorsed in the relevant subject area(s) using state-developed proficiency targets and associated rubrics.

The superintendent or designee will develop a process in accordance with the accompanying procedures for:

- Approving student proposals and performance-based pathway opportunities developed by a school or the district,
- Assessing student products, and
- Addressing the safety of the student learning experience.

At least annually, the district will examine data on student groups participating in and completing each graduation pathway option offered by the school district according to RCW 28A.655.260.

The district encourages students' verbal and written expression of opinion on school premises so long as it does not substantially disrupt the operation of the school or otherwise violate this policy. Students are expressly prohibited from the use of vulgar and/or offensive terms in classroom or assembly settings.

Material appearing in such publications may reflect various areas of student interest, including topics about which there may be controversy and dissent. When engaging with a controversial issue, student publications should strive to provide in-depth treatment and represent a variety of viewpoints. Such materials may not:

- Be libelous or slanderous;
- Be an unwarranted invasion of privacy;
- Be obscene or profane, such that it would violate federal or state laws, rules or regulations or incites others to violate federal or state laws, rules or regulations, including the standards established by the federal communications act or applicable federal communication commission rules or regulations;
- Incite students so as to create a clear and present danger of the material and substantial disruption of the school;
- Violate district policy or procedure related to harassment, intimidation, bullying, or related to the prohibition on discrimination pursuant to RCW 28A.642.010.
- Violate federal or state laws, rules, regulations, or incite the violation of such laws; or
- Advertise tobacco products, liquor, illicit drugs, or drug paraphernalia.

The superintendent will develop guidelines, assuring that students are able to exercise freedom of expression so long as it does not present a material and substantial disruption of the orderly operation of the school, implementing the standards above, and establishing procedures for the prompt review of any materials that appear not to comply with the standards.

### Distribution of Materials

Students and district staff may distribute student publications or other materials on school premises in accordance with procedures developed by the superintendent. Such procedures may impose limits on the time, place, and manner of distribution including prior authorization for the posting of such material on school property.
